

Overview

LEMAR modern flush mounted electric track featuring internal electrical conductors that allow the installation of various connectors, such as universal and Schuko types, at any point along its length. These connectors can be easily moved or added without the need for separate wiring for each unit. Its sleek design adds an elegant touch to the decor.

In essence, it functions as a flexible and organized electrical busway, enabling efficient power distribution to lighting fixtures along the track.

Electrical Specifications

Rated Power (W)	8,000W
Frequency	50/60 Hz
Voltage	220-250 V
Current (A)	32A

Performance Warranty

Warranty	3 Years
----------	---------

Mechanical Specifications

Housing color	Black
Material	Aluminum+copper
Dimensions ((L*W*D)	600*66*34.2 mm
Working Temperature	-10 to +40C
Ingress Protection Code (IP)	IP20

APPLICATIONS
